

- De-underline all urls and email addresses throughout document
- Change bottom margin:
  - Columbia Falls Aluminum Company Superfund Site ~~CIP~~ ..... [www.epa.gov/superfund/columbia-falls](http://www.epa.gov/superfund/columbia-falls)
  - Justify “Columbia Falls Aluminum Company Superfund Site: to the left and the URL to the right
- Change MDEQ to DEQ throughout

Pg 8.

The infographic this timeline below shows the major steps in the Superfund process and where the progress of the CFAC site is in the process.

16.

\* first paragraph:

During ~~past~~ outreach activities, EPA identified ~~several~~ methods the community prefers to get information and be engaged in for engagement and being kept informed about the CFAC Superfund cleanup.

- For each communication preference, change the tense of the language from past to present eg:
  - Info Sharing: People ~~stated say~~ that EPA should use a range of methods to keep the community, government staff, agencies and elected officials updated on all site-related work. EPA should share information in written form and include graphics, pictures and maps. Information should be straightforward and easy to understand in plain language. Recommended outreach methods include regular mailings, Internet and social media, and emailed newsletters. People also recommended radio announcements, newspaper articles and television news stories to make sure information reaches as many people as possible. Many ~~also people~~ requested that information be made available online and locally.
  - Public meetings: People ~~agreed~~ that meeting in person . . .

**Commented [MR1]:** This way it conveys the conversation is ongoing and these preferences are current.

18.

EPA's community involvement plan for the CFAC site outlines how EPA will work with others to address community concerns with consideration for the community's preferred communication methods. To ensure fair and meaningful public involvement in the investigation and cleanup at the CFAC site, EPA will:

**Commented [MR2]:** Keep large font and formatting

EPA Community Involvement Plan Goals:

To ensure fair and meaningful public involvement in the investigation and cleanup at the CFAC site, EPA will:

**Commented [MR3]:** This should match the font/format of "Community Engagement Tools and Activities" and "Additional EPA Resources"

1. Promote community awareness and understanding of the CFAC site and Superfund process by collecting and making information available and accessible to the public in a timely and non-technical manner.
2. Encourage and publicize opportunities for community engagement and public comment throughout the Superfund process.
3. Sustain long-term public engagement and maintain two-way communication with the community, partners and stakeholders to make sure that people have equal access to the Superfund decision-making process and the same degree of protection from environmental and health hazards regardless of race, color, national origin or income.

Community Engagement Tools and Activities

**Commented [MR4]:** Keep current formatting

Under website.

- The ~~web page~~ website will:

- Second bullet: ~~Post-Share~~ updated information to the Superfund cleanup process ~~to with~~ the public. New and topical information will be featured ~~on the front page of the website prominently in the TOPICS IN FOCUS section.~~
- Third bullet: ~~Publish site reports~~ Provide access to and documents related to the site as they become available to the public. A link to the ~~document collection~~ section is located on the front page of the website ~~under Site Reports and Documents.~~
- EPA also has other ~~webpages~~ web pages available for . . .

19:

- Format each orange text box with a light bulb (see attached example) – change throughout document
- In the orange text box with background photo, change text:
- Look for the orange boxes ~~in this section~~ for ways you can engage with EPA.
- In orange text boxes, take out the “please” in each one so that they read
  - “Learn more about the . . . “
  - “Share your thoughts . . . “

Pg 20:

#### Education Materials:

To help address community concerns about the CFAC site, EPA will collect, prepare and distribute user-friendly documents to help people understand ~~the Superfund program and CFAC site conditions,~~ technical reports and legal concepts ~~in plain language.~~ EPA will use maps, photographs and other visual aids in these materials to help people understand the CFAC site. ~~Potential Current~~ fact sheets include:

- ~~CFAC Superfund Site Overview provides a general description of the site, site agency responsibilities and the timeline for Superfund implementation.~~
- ~~CFAC Contaminants of Concern discusses the contaminants of concern at the site, their effects on human health, exposure pathways and what the public can do to protect themselves.~~
- Introduction to Superfund: discusses community involvement requirements of the CERCLA law, the Superfund process and opportunities for community involvement. Formatted: No underline
- Reusing Superfund Sites: discusses EPA’s approach to supporting the beneficial reuse of Superfund sites and Formatted: No underline

26.

- De-underline titles of technical assistance programs. Keep blue font of hyperlink.
- Remove last bullet on the page: Other EJ related funding opportunities.

30

Change second paragraph: ~~All cleanup work is approved and overseen by EPA and MDEQ. In November 2015, EPA signed a final agreement with CFAC to investigate site contamination. Under the terms of the agreement, CFAC is conducting a comprehensive investigation of soils, river sediments, and ground and surface water to determine the nature and extent of contamination at the site. In 2017, the collection of the first round of data from the investigation was completed. All work is approved and overseen by EPA and MDEQ.~~ The results of the investigation will determine cleanup needs and identify potential cleanup options. ~~In 2015, Calbag purchased the physical aluminum plant infrastructure from CFAC and works. Work is ongoing to dismantle the structures as ongoing.~~

Pg 34

- Put Mike’s Contact first before Robert Moler
- Remove acronyms – (EPA) (MDEQ) after agency names
- De-underline all email addresses
